

The Campership Fund

For Christian Scientists

EST.
1992

Dear Friends,

July is a busy month at the six camps for Christian Scientists as they get into the flow of summer youth sessions. Here at The Campership Fund, we can't wait to read the stories, see the photos and watch the videos that we'll soon receive from scores of happy campers! **Each year, we get hundreds of these gratitude notes, telling us about spiritual growth and healing, new activities experienced and friends made.** If you follow us on social media, you are probably familiar with our weekly sharing of some of these letters.

There have been a few programs held at the camps already this year. We hope you enjoy reading some of the letters of thanks we've received about 2025 programs below!

"Our family very much enjoyed our second winter camp. It was great to see other Christian Science families again and also engage in the activities that the staff had planned. One of our favorites was Bible story charades! We also enjoyed the quiet times by the fire reading Christian Science texts while the kids played quietly with the numerous game options and listened.

Overall, it was a wonderful way to start the New Year on a peaceful, spiritual foundation. Thank you!"

"Thank you so much for helping our family attend the Memorial Day Weekend camp program. We thoroughly enjoyed the activities, including arts and crafts, horseback riding, nature walks, disc golf, the camp tour, and sports. Our son enjoyed making cards with his [grandma] and doing the painting class with us, which they flexibly allowed him to attend

multiple times as a six-year-old. It was a beautiful opportunity for three generations of our family to share a cabin and bond in a comfortable setting that supported all of our needs. We all enjoyed the delicious meals that inspired us to go home and get creative in the kitchen. My husband and I very much enjoyed our nightly date night with the babysitter coming to the cabin to care for our sleeping children while we enjoyed board games with friends. Thank you so much for helping us start our summer out with a joyous and peaceful time together.

We had the opportunity to work with the camp practitioner on some challenges, and we're so grateful for the support and the lovely care house that provided plenty of study materials and resources. Starting our summer with camp also helped us set up the routine of studying our daily Bible lesson and starting our days with God thoughts."

Inspiration From CS Periodicals

Last month, we shared several articles from The Christian Science periodicals that mention camps for Christian Scientists. There have been so many great ones throughout the years that we are sharing some more!
